

The Ultimate Kids Camp Press Release

July 22-25, 2010

The Ultimate Kids Camp

4 days, 3 nights – at Lac Philippe in Gatineau Park, Quebec

Ultimate Kids Camp is a different kind of summer camp experience. This unique empowerment program is offered to children between the ages of 6 to 14. Organized by Empower Kids Canada, the camp empowers children to increase their self-confidence, feel their inner power using strategic games, play and lots of fun. Children learn and practice focus, accountability and the importance of participating at 100%. The objective of the camp is for children to learn to be reliable and to experience their personal best in a safe and guided environment. With increased confidence and inner power, children perform better at school, in sports and in life.

This empowerment program for kids has been successfully ran for 5 years by Aaron Huey and his team of Fire Mountain in Denver, Colorado, and finally it is available in Canada for the first time, one time only, from July 22 to 25 in the Ottawa area, in English and in French.

In a sense, the caliber of this camp and the highly experiential levels of strategic activities can be compared to the impact of Anthony Robbins' transformational programs for adults, or to T. Harv Eker's empowering camps as part of the Peak Potential Training courses.

Transportation to Lac Philippe in Gatineau Park is provided, and nutritious, peanut-free meals and snacks are prepared by a chef on-site. The camp is monitored by staff 24/7. In case of emergency, our staff is qualified to respond and provide first aid, CPR, or to administer EpiPen.

To register, or for more information, please visit www.empowerkids.org, or call Empower Kids Canada at 1-877-909-KIDS or at 613-301-6323. Enrollment is limited.
